Introduction

Welcome to our world of comfort and care — where innovation meets responsibility to deliver the finest baby pull-up diaper pants for your brand or business.

At our core, we are driven by a simple yet powerful mission: to provide premium-quality diapers that ensure the highest level of comfort, protection, and hygiene for every baby. We specialize in manufacturing baby pull-up pants that not only meet but exceed the expectations of modern parents and caregivers. With a focus on quality, consistency, and customer satisfaction, we have built a strong foundation rooted in advanced manufacturing processes, globally sourced raw materials, and a deep understanding of market needs. Whether you are a brand looking for reliable OEM partners or a distributor seeking high-quality products at competitive pricing, we are here to support your growth.

Let's Know about our Product

Major Components of Pant Style Baby Diaper

	Component Name	Discription
A	Side Sealing	Secure, stretchable, and easy to tear for quick changes.
B	Spandex	Soft, high-quality elastic for a comfortable and flexible fit
C	Back sheet	Breathable & waterproof layer to keep babies dry and comfortable
D	Leg Cuff	Soft, snug-fitting cuffs help prevent leaks and ensure gentle protection around the legs
E	Topsheet	Soft-touch layer that quickly absorbs moisture to keep skin dry
F	PE Film	Designed waterproof layer that prevents leaks while allowing airflow.
G	Absorbant Core	Made with high-quality SAP and pulp to provide superior absorbency.
H	Criss Cross Channel	Innovative design that evenly distributes moisture, preventing leaks and ensuring dryness
I	ADL	Ensures rapid moisture distribution and even absorption, keeping the surface dry and comfortable

Our commitment to **QUALITY**

We ensure every diaper is manufactured using the highest quality raw materials:

- **Pulp:** US-imported branded pulp from Resolute/ GP Cellulose/ Domtar
- **SAP (Super Absorbent Polymer):** Imported from Sumitomo / LG
- **Spandex :** Creora
- **Glue:** HB Fuller / Henkel
- **Non woven, PE Film and Other Raw materials** are of premium quality and are imported to ensure top tier quality.

Each diaper is crafted for maximum absorbency, comfort, and safety for the little ones.

Our componental add-on

OFFERINGS

01 Bubble topsheet

We offer a soft and breathable Bubble Bubble topsheet as an add-on.

Pros: Enhanced comfort, provides dry & gentle feel.

Addon Charges>.....

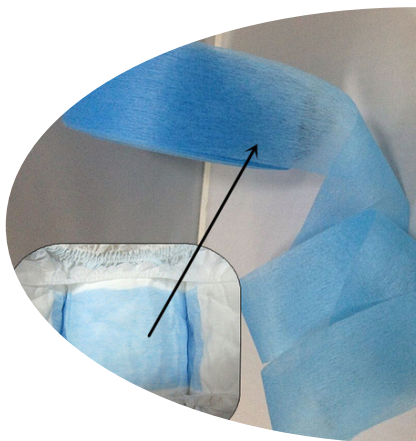

02 Wetness Indicator

A wetness indicator changes color when the diaper becomes wet.

Pros: helps to easily identify when it's time for a diaper change.

Addon Charges>.....

03 ADL(Acquisition Distribution Layer)

The ADL quickly absorbs and evenly distributes liquid across the diaper core. it also passes the rewet test quickly.

Pros: helps to keep the baby's skin dry and prevent leakage.

Addon Charges : For Green..... For Blue.....
For Purple..... For White.....

04 Blue Elastic at Front

We specially offer a blue coloured elastic at the front of the diaper.

Pros: to indicate the front side and help easily identify the diaper size.

Extra addon specially requested by customer:

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Logistics & Transportation

Reduce Your Logistics Expenses by Choosing Our Services

We Offer Two Delivery Options to Suit Your Needs:

► **Type 1 Delivery:**

Loading Quantity: Approx. 1,00,000 to 1,50,000 pieces (depending on packing style)

Freight Charges: Only 2%

For All Tier 3 and Tier 4 cities in Bihar and Uttar Pradesh

► **Type 2 Delivery:**

Loading Quantity: Approx. 2,75,000 to 3,25,000 pieces (depending on packing style)

Freight Charges: Only 1.5%

For All Tier 3 and Tier 4 cities in Bihar, Uttar Pradesh, and West Bengal

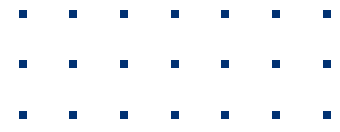

- Apart from these states, we offer standard delivery across India based on mutually agreed terms.

Why We Offer Extremely Low Transportation Charges

Bihar stands as one of the most robust consumer-driven markets in India. Due to the high volume of goods moving into the state, we are able to access highly competitive return-trip freight rates from transporters. This unique logistical advantage allows us to secure cost-effective vehicle deals, especially on return loads that would otherwise go empty. By efficiently leveraging these favorable freight conditions, we are able to significantly lower our overall transportation expenses.

Most importantly, we extend this cost benefit to our clients across all regions of India, ensuring that you receive premium-quality products at exceptionally minimum delivery rates — no matter where you're located.
